GENDER SENSITIZATION, UDALGURI COLLEGE

Gender sensitization is the pathway for understanding the delicate needs of a particular gender, be it female, male or transgender. It helps us to observe our attitudes and beliefs and question the realities that we thought we knew. Educational institutions can be instrumental in instilling thoughts and correcting insights (if need be). They help in developing a more democratic society capable of changing attitudes into accepting gender equality as a fundamental social value.

It is the recognition of the roles played by both men and women and addressing their needs through policies and institutional mechanisms that are crucial in determining levels of development of the society and the nation. Udalguri College is an institution whose first mission is to impart a sound holistic education to the students, not only to empower them but also to enable them to become confident, self-reliant and responsible citizens. It is committed to gender sensitization which is reflected in the programmes it has undertaken in the past few years.

Gender sensitization begins on the very first day when a student enters Udalguri College and takes part in the orientation program which guides her through the myriad lines of student activity, creating awareness about empowering women.

The staff consists of both male and female employees. Gender sensitization thus aims at sensitizing both staff and students about citizenship rights, demeanour at workplace and prevention of sexual harassment. Teachers' commitment is a key factor in the promotion of gender equality in the institution. As the composition of the College is multi-ethnic, multi-linguistic and multi-religious one, the importance of using gender-sensitive pedagogy is a must.

Teachers are strategically positioned to act as agents of change in order to achieve gender equality, especially through what they teach, how they teach and how they role model their concerns, attitudes, beliefs and practices in the classroom and beyond.

The objectives are –

- To instil positive values so as to erase biases in the young developing minds to help them progress towards a fair and unbiased society.
- To create awareness regarding gender discrimination, violence against women, deprivation of women, rights of transgender persons and other issues through lectures and familiarize students about their constitutional rights and safeguards.
- To facilitate a gender-sensitive environment for enabling members of the teaching and non-teaching staff to maximize their potential.
- To undertake policy initiatives for providing equal opportunities to staff and students.
- To create an environment in which the students and the staff jointly participate in college actions and activities with an open mind.
- To create a transparent environment of discussion, dialogue, tolerance and solution and work towards a modification of behaviour by raising awareness of gender equality concerns.
- To deal with cases of sexual/psychological/emotional/physical harassment objectively and as much as possible for an academic institution.

The Institution's plan is such that girls understand women's issues and learn how to deal with them effectively. It is a training of minds that helps them throughout life. The dimension of gender discrimination is vast but through these awareness programmes and mentorship we find a solution by teaching them that although one may be biologically different our needs and concerns are the same. We teach them how to address and tackle differences and complicated situations of life. A gender-sensitive environment enables girls to maximize their potential as it builds self-respect, confidence and self-esteem. The institute's observances and extension activities are designed to cater to these needs and various committees are formed and cooperation between staff and students is encouraged. The institution promotes gender equality through various policy initiatives undertaken for providing equal opportunities to staff and students.

Strategies Adopted to Fulfil the Objectives:

To fulfill these objectives, Udalguri College has developed and implemented a well-planned inclusive strategy as enunciated below-

- The Women Cell of the College organizes seminars, talks, workshops, and competitions addressing gender issues.
- Encouraging students to become members of existing clubs and societies such as the Historical Society, Photographic Club, NDLI, Philosophical Society, Economics Society, Yuva Tourism Club, Cine and Drama Club, English Literary Society, Chemisoc Society, Twitcher Club, Electoral Literacy Society, Legal Literacy Club and Eco Club of the College so that they gain self-confidence.
- Encouraging Student Presentations which help in enhancing preparedness.
- Encouraging students to make literary and other contributions to the Departmental Wall Magazines and the annual College magazine *Harbinger*.
- Encouraging students to participate in community, social and environmental works conducted by the NSS and the Unnat Bharat Abhijan, Udalguri College Cell.
- Encouraging students to participate in extra-curricular activities including competitions organized by the college and other institutions.
- To organize Freshmen Social, Class Farewell, Teacher's Day, Saraswati Puja, Pre-Bwisagu/Bihu and Pre-Christmas on their own.
- To participate in important events such as College Foundation Day, International Women's Day, Republic Day, National Youth Day, and Independence Day celebrations.
- Giving opportunities to students to participate as teams to represent the college in Mock Youth Parliament and to act as College ambassadors in various competitions outside the campus.
- Encouraging students to participate in every cultural event held in the college and showcase their talents.
- Offering several value-added courses to enhance their employability.
- Mentorship by faculty to help students develop life skills, soft skills and personality and self-esteem.
- Providing hostel facility for women students.

Several other accompanying policies are as follows:

- A Grievance Redressal, Anti-Ragging and Anti-Sexual Harassment Cell has been set up in

the College in accordance with the Government rules for resolving and dealing with any such issues in the College campus.

- The Committee of Internal Complaints which is an all-encompassing committee to look into the problems, grievances and complaints of the students, the teaching staff and the non-teaching staff, plays an important role in ensuring equal opportunity for all and resolution of grievances with utmost care and confidentiality.

- Teaching strategies that are reflective as well as objective are planned and mentoring strengthens student-teacher relationships and aids in filling loopholes (if any) so that work towards 'gender mainstreaming' is effective.

- The staff of the college is directed by the HOI to follow the College Codes of Conduct and to act in a manner appropriate for all institutions.

Besides promoting equality for all, the College undertakes strict policies for ensuring the safety and security of the girl students and also the female staff –

- Trespassing is strictly prohibited in the Women's Hostel and security is monitored by women sentries posted at the entrance gate.

- CCTV cameras are installed at vantage points keep a 24-hour vigil on all activities and movements in the premises, thus enhancing the safety and security of staff and students in the College.

- Office maintains first-aid kits, masks and sanitizers for maintenance of health safety.

- Disabled-friendly student washrooms have been constructed. Gender discrimination against girls is rampant and due to fear of abuse and exploitation many women remain silent and suppressed and even as adults 'die with a scream in their throats'.

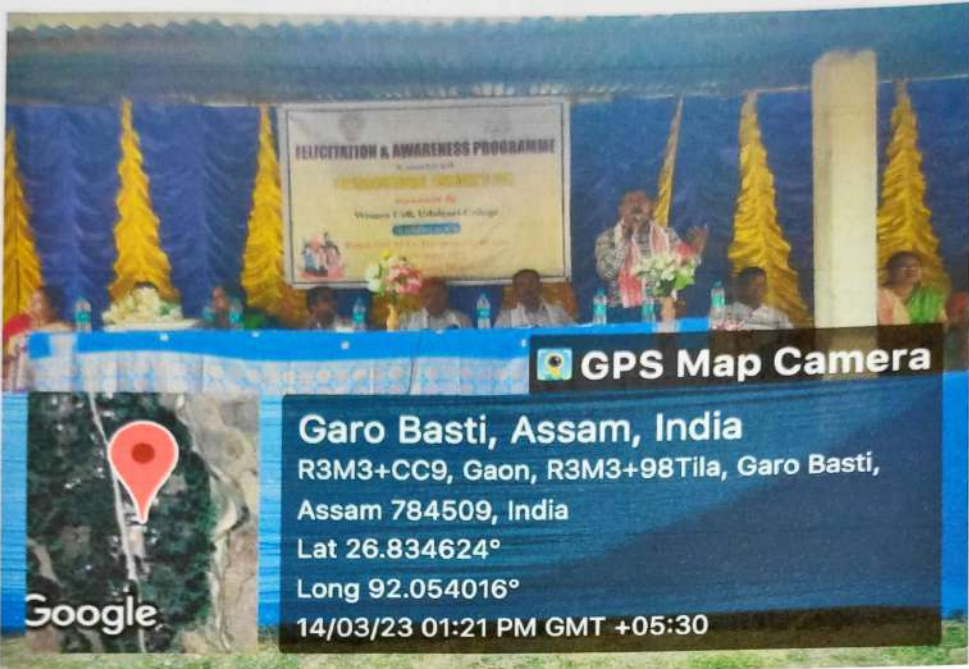

- The College takes initiative to teach the young minds to stand up against all odds and trust their own voice. Gender sensitization programs have instilled confidence and self-reliance in girls, moulding their personalities in such a way that they have emerged as strong well-rounded personalities who have stood the test of time. As such they have contributed to society in their chosen field of activity be it in the police services, corporate, administration, sports, politics, education et al. Gender sensitization in future will concentrate

on building awareness on loss of human resource potential due to gender discrimination and inequality.

Historical Society

The Historical Society of Udalguri College, Udalguri is attached to the Department of History, Udalguri College. It came into existence on the 23rd of August 2022. It aims to discover the hidden historical aspects of the Udalguri district and make the stakeholders and the nation at large aware of the rich legacy of the place. Much of the history of Assam before the advent of the Ahoms is lying in the labyrinth of darkness. There is a minimal historical treatise written, which reveals the rich repository of history that Assam holds. Udalguri is not an exception in this regard. Remnants of the past, lie scattered around the district but there is hardly any description of the place in the pages of history with certain exceptions to Darrang Raj Vanshaval where certain places of Udalguri district have been mentioned. The Historical Society of Udalguri College, Udalguri has been instituted due to this endeavour to discover, decipher and interpret the pre-historical and historical relevance of Udalguri. The Teachers, students and alumni as well as anyone interested in history can become its members. As of now, the following is the composition of the Society

Grievances Redressal

An institution succeeds in fulfilling its aims and objectives only when it addresses the grievances of its stake holders, particularly of the students and employees, promptly and judiciously. Therefore, the college keeps a sound system in place for grievance redressal. A specially empowered cell is formed for such a purpose and any of the stakeholders can approach the cell with their grievances. The cell also works as anti-ragging and anti-sexual harassment committee as well.
